

Ref. Code: AP056

Date: July 2016

CT1E, CT3E Flexi-Pipe

Product Description

This flexible pipe can be used as a venting accessory for Ariel Corovent Tile and Ridge Vents. It forms a connection between the vent pipe terminal of the Tile or Ridge Vent, and a 110mm diameter soil pipe. Fixing clips are included. (Please check with Technical department for applicable tile vent models).

The CT1E/CT3E has been specifically designed for use as a flexible connection between grilles, diffusers, fans and other air terminal units and the main ductwork in heating and ventilation systems. It is suitable for both low and high velocity systems and extraction plant.

- Conforms to BS476 part 6, 7 & 20
- Fire resistance time of 60 minutes
- Good flexibility and excellent compressibility
- Can be shaped to fit oval installations
- Tough and tear resistant
- Easy to install

Product Specifications	
Code and Length	CT1E - 1m, CT3E - 3m
Diameter	110mm
Material	Tough, PVC coated glass fibre, reinforced with a corrosion resistant coated high tensile steel helix.
Colour	Grey
Temperature Range	-5°C to +90°C in 20°C ambient
Maximum Air Pressure	2500Pa
