Dry Fix High Profile Joining Gutter

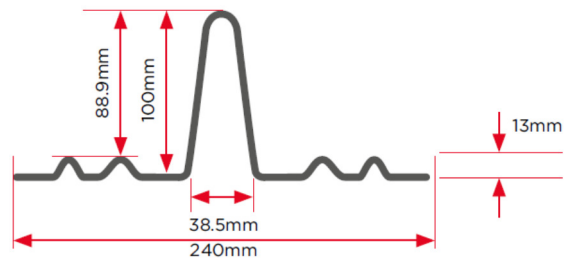

Heavyweight, with 100mm upstand for profiled tiles

Product Features

Mortar free dry fix joining gutter, creates a weatherproof joint between the roofs of adjoining houses or where a new roof needs to join an existing roof. It can join a combination of slates, clay or concrete tiles.

- UV light and acid rain resistant
- Similar in appearance to lead
- Less prone to theft
- Quick to install
- Smooth surface inhibits the growth off moss and lichen and build-up of debris
- Fire resistance to SAB to BS476 part 3 and Class 3 BS476 part 7

- Minimum roof pitch 17.5° degrees
- Suitable for use with high profile tiles on one or both sides, flat interlocking and plain tiles
